STARTER FIELD

max. Number of Drivers: 120

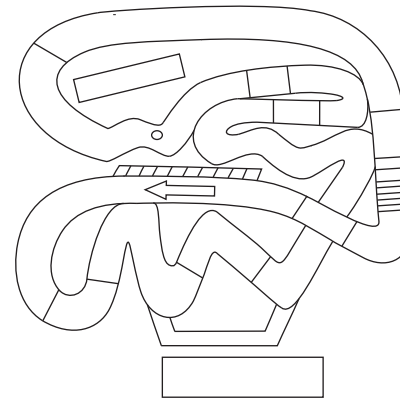

RACE TRACK

European Championship 1/8 OR IC 2002

- Length** : ca. 310 m
- Width** : ca. 3 to 4 m
- Floor covering** : ca. 170 m loamy soil, ca. 120 m grass and ca. 20 m concrete stones
- Lap-time** : ca. 40 seconds
- Peculiarities** : A bridge from wire network, which made a good visible under-driving possible.

Altogether there are nine water outlets, built at the deepest points of the track. During rain, the surface water runs off immediately. You could noticed that pretty good at the European championship 2002.

Quality ... for this we are using all our experience in big races.

Rain ... we left over thanks to top groomed track.

Spectators are to be found ... thanks to the support of the media always.
